Tile*

Just Click Quick and Easy

The click system brings easy installation method and reduces installation cost. As long as your ground is level, SPC flooring can be installed directly over existing ground. After 24 hours, you can use it. For DIY lovers, this is definitely the best choice.

A close-up photograph of a person's hand touching a dark, marbled SPC flooring sample. The hand is positioned at the top right, with the index finger pointing down towards the text. The flooring has a dark grey or black base with intricate, light-colored veins, resembling natural stone or marble. The background is dark and out of focus.

SPC flooring has a warmer skin. It doesn't have the frosty touch of ceramic tile. Able to keep touches warm in winter and cool in summer. Friendly to your warm touch. SPC flooring keeps love at home.

Warm Touch

DN2345-1

Accidents of slip and fall injuries occur frequently at home or in public places. **Anti-slip** performance began to become a priority for people to choose floors. SPC flooring becomes astringent in contact with water, and the anti-skid grade is above **R10**.

And the SPC flooring is eco-friendly and has zero formaldehyde. No glue is used in the whole process of production. DECNO is FloorScore® certified and fully suitable for use in residential and commercial environments.

Safety No.1
